

# Twello Internships

---

SPECIALLY DESIGNED FOR  
FYUGP STUDENTS IN KERALA

---

twsello /twi-sel-loh/ noun

Liberate Knowledge. Refuge for Humanity.

Twrello is not merely a platform.

It is a culture of inquiry.

At its core, Twrello nurtures a new generation of thinkers,  
students who do not just consume information,  
but question, explore, document and interpret the world around them.

Through Twrello, research is not confined to libraries alone.  
It walks through streets, monuments, memory lanes and living communities.  
It becomes an experience, a dialogue, a responsibility.

We strive to build a strong research temperament among the youth of Kerala, orienting them towards critical thinking, field-based studies, interdisciplinary exploration, and meaningful academic contribution.

TWSELLO SUPPORTS  
RESEARCH.

TWSELLO ENHANCES  
RESEARCH.

TWSELLO CREATES A SPIRIT  
WHERE RESEARCH BECOMES  
INSTINCT.

By partnering with institutions,  
we transform students into researchers,  
and campuses into living laboratories of knowledge.

In doing so, Twselfo fulfils its deepest promise,  
to liberate knowledge  
and become a refuge for humanity.

## What We Actually Do

- Supporting student research initiatives
- Enhancing academic inquiry culture
- Developing research temperament
- Training students in documentation & interpretation
- Providing platforms for publishing & presentation

Research becomes:

Experience — Expression — Impact

## The Twsello System

- Campus Orientation Session
- Research Sensitisation Workshop – Mode : Internship
- Field Research Training
- Guided Micro-Research Projects
- Documentation & Presentation Support
- Showcase & Publication Opportunities
- A complete cycle of learning-to-research.

Twsello prepares  
students to  
become:

Confident  
researchers

Critical thinkers

Cultural  
interpreters

Responsible  
knowledge  
creators

Future-ready  
Change makers

Twello equips them to face the world by [Liberating knowledge](#).

We believe they will take up their own paths and become [Refuge to the Humanity](#).

Through collaboration, we aim to:

Strengthen research oriented programs

Support FYUGP internship objectives

Enhance institutional academic visibility

Create sustainable knowledge ecosystems

---

# TWSELLO INTERNSHIP PROGRAMME

Learning – Research – Innovation – Community  
Engagement – Impact

10 Days 120 Hours / 30 Days 360 Hours

Fully Online / Hybrid

Specially designed Internships aligned with NEP  
/ FYUGP programmers

UN SDG Standard

# Internship Courses Offered

1. **Intellectual Property Rights (IPR)**

Understanding ownership, originality and ethical protection of ideas in academic and creative research in the age of Gen AI.

2. **CNC – Communication, Negotiation & Conflict Resolution**

Developing articulation, leadership dialogue and problem-solving skills essential for collaborative research and social interaction.

3. **Creative Writing & Presentation**

Transforming ideas into impactful narratives and structured academic communication.

---

#### **4. Robotics & 3D Printing**

Introducing emerging technologies to encourage innovation, experimentation and design thinking.

#### **5. AI & Prompt Engineering**

Equipping students to collaborate with Artificial Intelligence through skilful prompting, critical thinking and ethical engagement.

#### **6. Digital Media Orientation**

(Podcast, YouTube & LMS Platforms)

Training students to document and disseminate knowledge through modern digital communication channels.

---

## 7. Oral History Tradition & Heritage Walk

Hands-on experiential sessions connecting students with living histories, cultural landscapes and community narratives.

## 8. Skills for Success

(PowerPoint, Excel, Google Docs)

Strengthening operational and documentation skills necessary for academic and professional excellence.

## 9. Creative Journaling

Encouraging reflective thinking, observation and personal research documentation.

## 10. [Twselfo Exclusive Community Internship](#)

UN SDG Aligned 120-hour structured field programme fostering Physical and Emotional wellbeing, Intellectual temperament, and Community engagement.

---

# What Makes This Internship Unique

- Research-oriented framework
- Experiential & field-based learning
- UN SDG Inspired pedagogic approach
- Skill + Scholarship fusion
- Community impact
- Career and research preparedness
- Extension Programs
